EDITORIAL NOTE ON BRIGHT MEMORY OF PROFESSOR YURIY RUD'

Professor Yuriy Rud'
(March 21, 1939 – September 13, 2020)

With heavy hearts we are to inform you that at the age of 82 years, after a long illness, the leading researcher of the laboratory «Physics in the realization of the biological potential of organisms» of the All Russian Research Institute of Phytopathology, Doctor of Physical and Mathematical Sciences, Professor Yuriy Rud' passed away.

Specialists are well aware of Yuriy Rud's extensive research on optical, photoelectrical, and luminescent properties of multicomponent semiconductors and living plant and animal objects.

Yuriy Rud' created a broad international scientific school, from which fifteen candidate and five doctoral theses were issued. He has published more than 600 papers, including 10 reviews, a collective monograph, 28 copyright certificates for inventions and patents.

The bright memory of Yuriy Rud' will always remain in our hearts.
